Category Breakdown

Technical SEO	70/100
Content	55/100
On-Page	68/100
Links	60/100

Findings (3 issues, 2 passed, 6 in your plan)

HTTPS Enforced

Site is served over a secure HTTPS connection.

PASSED

XML Sitemap Missing

No sitemap.xml could be found at the domain root or referenced in robots.txt.

HIGH

REMEDIATION

Generate an XML sitemap and submit it to Google Search Console.

Meta Description Too Short

The homepage meta description is 62 characters, below the recommended 120-155.

MEDIUM

REMEDIATION

Expand the meta description to summarize the page value proposition within 155 characters.

Duplicate Title Tags

3 pages share an identical <title> tag, diluting relevance signals.

HIGH

REMEDIATION

Write a unique, keyword-specific title for every indexable page.

No Broken Internal Links

All internal links returned a successful response code.
